**CATTLEYA ALLIANCE SEEDLING FLASK LIST**

**November 2009**

**PLANT PRICES**

**PRICE PER PLANTS :** \$1.85 per plant unless otherwise stated.

**MINIMUM SEEDLING FLASK ORDER** is 10 plants of any one item thereafter that quantity may be increased in multiples of 5 plants.

**STANDARD FLASK SIZES** are 15 & 20 plants. Other sizes will be prepared to order only. Items may be mixed with flasks of any other genus to make quantity rates.

**SHIPMENT:** ALL plants will now be shipped ex-flask by express mail. Orders for 40 or more plants will be shipped POSTAGE FREE. Orders for less than 40 plants will be charged a \$10.00 packing fee PLUS postage at cost. **Plants may be collected in flask.**

**PAYMENT:** All orders must be paid for before shipment. We accept VISA, BANKCARD & MASTERCARD (Subject to fees as per our trading conditions), cheques or postal orders.

---

All parent plants used have been grown in winter temperatures as low as 0 deg C overnight for several years and summer temperatures as high as 46 deg C.

Items highlighted in red are now in low stocks or are about to be deflasked.

**CAX-2382** C. Chocolate Treats "Orange Glow" x Lc. (C. Wings of Red x Lc. Culminant) "Vi". A miniature orange

**CAX-2387** Lc. Maple Land "#6" x C. Loddigesii. Deep wine pinks on smallish plants for summer/autumn. Our Maple Land clones flower twice a year. Dark lips possible. Mini flowers.

**CAX-2388** Lc. Bonanza "Glenrae" x Blc. Murray Spencer "Armroy Dark Star". Large deep burgundy shades. Shape is expected to be rounded and filled in. "Glenrae" is our own breeding and is Bonanza x Bonanza.

**CAX-2390** Lc. Wrigleyi "Glenwood" x (L. Gouldiana x C. Chocolate Drop) "Purple Star". Deep purple clusters and 10 plus flowers per raceme. Mid-winter flowering and we grow all parents without heat.

**CAX-2391** L. Anceps "Brilliant" x self. A mauve pink Anceps with a beautiful ruby red lip. Cold growing. Possibly 4n.

**CAX-2397** C. Intermedia "Breckenbridge Snow" x (C. Intermedia x L. crispilabia) "Glenwood". White/pink clusters – cold growers. Flowers about 75mm. 6 to 10 flowers. Variable season – some may flower twice per year. "crispilabia" is now considered to be L. caulescens. Novelty type.

**CAX-2402** Ctna. Keith Roth "Regal Red" x (C. Intermedia x L. caulescens) "Glenwood". "Regal Red" is a very deep "blood" red and has very heavy substance. 5 to 10 flowers possible.

**CAX-2405** Lc. Chocolate Treats "Orange Glow" x C. Loddigesii "Mauve Pink". An orange mini cluster type crossed to a mauve pink small growing species that produces 5 or more flowers per bulb. Spring and summer.

**CAX-2406** Blc. (Fortune x Helen Morita) x C. Intermedia "Breckenbridge Snow". A large splash petal pink/mauve crossed to a small white. Splash types possible. 5 plus flowers. "Fortune" apparently carries the "splash" factor.

**CAX-2408** (C. Chocolate Drop x L. gouldiana) "Regency" x (C. Portia x L. gouldiana) "Pink Panther". A deep purple with a tall spike crossed to a softer bluish pink cluster. Flowers about 80 mm. Flowers on thick erect spikes. Possible a 4n cross.

**CAX-2409** Lc. Wrigleyi "Glenwood" x C. Chocolate Drop "Kodama". Autumn/winter flowering cluster varieties. 10 plus flowers. Heavy substance flowers. Tall spikes and flowers clear of foliage.

**CAX-2410** Lc. Gold Digger "Orchidglade" x Self. Clusters of clear bright orange flowers about 60mm.

**CAX-2411** Lc. Daisy x C. intermedia "Glen Alba". A semi alba crossed to a pure white. Tall spikes.75mm plus flowers.

**CAX-2412** Blc. Tribute "Independence Day" x Lc. Murray Spencer "Amroys Dark Star". Show bench purples and deep red/purples.

**CAX-2413** (C. Portia x L. Gouldiana) "Mini Purple" x C. Hunabu Surprise "Beejay". Clear soft bluish mauve shades, some may be splash petals. **Limited.**

---
